BURNS SUES CARMAN FOR \$50,000

LAST PICTURE OF SLAIN WOMAN

Photograph of Mrs. Louise Bailey, who was killed in the office of Dr. Edwin Carman and for whose death Carman's wife is held in \$20,000 on charge of manslaughter.

LOOK FOR ANOTHER ARREST

NEW YORK, July 18.—Detective William J. Burns announced today that he had instructed his lawyers to sue Dr. Edwin Carman and Attorney George M. Levy, counsel for Mrs. Florence Carman, for \$50,000 each for defamation of character.

This action is an aftermath of attacks made on the detective for the course he has followed in investigating the murder of Mrs. Louise Bailey in the office of Dr. Carman at Prescott. Burns said: "It is to be expected that an attack of that kind would be made upon me. People who are guilty always come across and knock. A dead one is never knocked. It is interesting to watch the antics of Carman and his wife and their attorney given a thought to poor Mrs. Bailey to happen to them. They have never given me thought to poor Mrs. Bailey or the child that was left motherless. They have never said anything kind about the woman who was slain in cold blood.

"There is no mystery in the murder of Mrs. Bailey. The footprints are absolutely perfect. There is no doubt that Mrs. Carman fired the shot. The ridiculous display Dr. Carman and his wife made of themselves on the night of the murder proves to be the strongest kind of circumstantial evidence. Why didn't they immediately send for the authorities?"

"I have instructed my attorney to bring suit against Carman and Levy for defamation of character because of things they said to me and about me. I am asking \$50,000 damages from each and I will give them a chance in court to prove their statements."

District Attorney Smith today predicted a startling turn in the story when he promised, if certain clues are developed, the arrest of a member of the Carman household as an accessory after the fact.

The probability of a second arrest, following the indictment of Mrs. Carman for manslaughter in the first degree, and her release on bail, has stirred the town here.

District Attorney Smith would not say at this time whether the clues to which he referred or even intimate in a more specific manner who would be liable to arrest.

CARMAN QUARRELS BURNHOLM.

Conflicting reports led today to the belief that Dr. Carman and his wife had quarreled soon after her release from Minnie's Jail.

Dr. Carman had informed the newspaper men that his wife would see them at a later hour, but at the jail she entered an automobile with Mr. Randall, one of her law-abiding.

An hour afterward Dr. Carman again visited the reporters and explained that Mrs. Carman had been ordered to the village of Queens, bearing a train there to take mother's rest and vacation.

"I shall join her later," he added.

Continued on Page 4, Column 1.

Vivian Burnett, 'Lord Fauntleroy,' to Wed Miss Buel

NEW YORK, July 18.—Vivian Burnett, who was made the Little Lord Fauntleroy by his mother, Mrs. Francis Hodgson Burnett, in the famous story by that title, when he was but eight years old, is to marry Miss Constance C. Buel, daughter of Mr. and Mrs. Clarence Clough Buel, of No. 130 East Seventy-sixth street.

Mr. Burnett is about thirty-eight years old, a graduate of Harvard and a member of the Players, Manhattan and other clubs. He lives with his mother in their home at Plandem, L. I. The marriage will take place in September.

Lineman Alive After Fall of 36 Feet

While at work today at the top of a pole on Bridge street, North, Benjamin J. Glidden of Revere, an Edison Electric Company lineman, tumbled a "shiv" wire carrying 600 volts and was hurled 36 feet in the ground below. He sustained severe burns on the left arm and right leg and contusions of the right hip, but will live.

Bridge Closed as Craft Jams Draw

The two-masted lumber schooner Newburgh jammed in the draw of the Dover street bridge today, putting the bridge out of commission for some time. Cars had to be diverted and all traffic over the bridge suspended. Three tugs snugged hawser after hawser trying to dislodge the craft.

Salem Fund Is Now \$558,881

New contributions to the state Relief fund amount to \$183,477, bringing the total to \$558,881. The people of Lowell sent in \$10,000; the citizens of Salem contributed \$1,150; and Peter N. J. sent a check for \$1,000.

POLICE WORK IN SECRET BUT BELIEVED TO HAVE SUSPECT UNDER WATCH

The belief of the authorities that the young woman whose body was found floating off Winthrop Beach Thursday morning is a victim of foul play was established today by statement of Medical Examiner Leary.

In explaining why he has kept the general public and reporters from viewing the remains at the City Hospital morgue Dr. Leary said:

"In the case of this crime, for example, suppose that the murderer should come into the morgue. He could very easily study the bruises or wounds and put up a corking defense."

TORRID WAVE BRINGS DEATH AND SUFFERING

DEATH.

UNIDENTIFIED MAN about sixty years old, collapsed in front of No. 270 Commercial street. Died on way to Relief station.

PROSTRATIONS.

HENRY O'NEIL, 87, an home overcame outside No. 108 Portland street. Taken to the Relief station.

PETER LINSIVITH, twenty-one, of No. 71 Morton street. Overcame at North Station.

One death and a number of prostrations were reported today as the result of the humidity wave which held the city in its grasp for the past forty-eight hours. Cooler weather is promised tonight and Sunday.

With this promise, Boston suffered with a better resignation the intolerable humidity of the morning hours. The temperature was not so high—ranging from 74 at 7 o'clock to 84 at 11, with a promise of touching 90 this afternoon.

But the humidity was 95—within seven degrees of rain! The result was much the same as a barber's hot towel laid over the city, a great hot, wet towel laid over the city.

The hottest July 18 on record was 97. In other cities today temperatures averaged up with Boston. These temperatures were—Chicago 77, Chicago 81, New York 78, New Orleans 80, San Francisco 66 and Washington 78.

Later Dr. Leary undertook to qualify this most striking statement so far made by saying he was just speaking in a general way, but the fact was out.

Dr. Leary has already made an informal report to District Attorney Pelletier. A formal report is to follow. He has kept the nature of several marks on the body secret from all but the authorities.

The police believe that the victim of this crime was a friend, probably sweetheart, possibly the wife of a soldier.

The police of Boston were called into the case today when Inspector Finn of the Metropolitan Police of the park police went to the town-house police station and asked that inquiry be made for "Viola of Malden."

It is thought that "Viola of Malden"—who made inquiry at Port Health early this week, may be the victim.

But until the body is identified, or until the full identity of "Viola of Malden" is established, the police cannot be sure of the victim's real name.

The search for a "Viola of Malden" Continued on Page 2, Column 1.

WEBSTER PLANNING NEW AIR FEATS AT REVERE

Fight Blaze in Campana Stores

Campana—Revere Beach—Webster, care for those with the keenest eyes the Sea Plane—the Sunday AMERICAN—and your own eyes! This is the combination that will

GLANDFORD, July 18.—Fire broke out today in the provision store room of the Campana liner Campana, and for a time the liner was threatened with serious damage. Firemen and members of the crew were finally able to control the blaze and confine it to the department in which it originated. The loss was slight.

Continued on Page 16, Column 1.

HOW HIGH WILL WEBSTER FLY TOMORROW AFTERNOON AT REVERE BEACH?

The SUNDAY AMERICAN offers \$250 IN GOLD for the best estimates. You will get the most approved method for judging altitude in a scale printed in tomorrow's SUNDAY AMERICAN. LOOK!! That's all you have to do to MAKE YOUR EYES PAY YOU \$250. Go to Revere Beach tomorrow afternoon and watch and estimate Clifford Webster in his wonderful Burgess-Dunne hydroaeroplane. He will climb, climb, climb.

HAPPENINGS IN SOCIETY

PAULINE RAFTER MUCH FETED
BOSTONIANS SAILING FOR EUROPE TODAY

Miss Pauline Rafter, whose engagement to Francis James MacQuinn of Somerville is announced.

Among weddings of wide interest is that of Miss Alice Veronesi Healey and Francis James MacQuinn, both of West Somerville, which is to take place Monday morning, August 2, in the private chapel of St. Mary's Church, North End, Boston. The union of the bride, the Rev. Thomas White, S. J., will officiate.

Miss Pauline Rafter is being much entertained in honor of her engagement to Roger A. MacQuinn of Allerton, which is to take place Monday morning, August 2, in the private chapel of St. Mary's Church, North End, Boston. The union of the bride, the Rev. Thomas White, S. J., will officiate.

The Misses Adelaide and Frances Kennedy of Larchmont street, Rochester, are at Hancock, N. H., where they will be joined shortly by their sisters, Florence and Mae.

From Melrose comes the announcement of the engagement of Miss May E. Griffin, daughter of Mr. and Mrs. J. Griffin of Melrose, to Frank A. MacDonald of Brighton. The wedding will be celebrated in the early autumn. Mr. MacDonald is a graduate of St. Francis Xavier college, Montreal, and is prominent in Knights of Columbus circles.

Mrs. Ellen Casey of St. Street, South Boston has opened her cottage at Larchmont street, Rochester, and has as her guest her son, the Rev. John J. Casey of South Boston, who is convalescing from his recent illness, and Mrs. Roger of South Boston and her children, Misses Helen and Marie and Master John.

Among Bostonians sailing for Europe today on the Berlin are Mrs. William V. Beat, Mrs. Frederick P. Fish, Clayton Johns, Miss Greenleaf

Girl Claims Small Fortune Ended Troth

Miss Nellie Hennick of Woburn, who has brought a breach of promise suit against Nathan Kaplan of Boston, has had an attachment of \$1,000 against Kaplan's bank deposits. She alleges Kaplan's love cooled when she said her fortune was small.

Fitzgerald to Give Chautauqua Lecture

Ex-Major Fitzgerald will make his debut as a Chautauqua lecturer today in Northampton. He will talk on "The Future of New England" with annotations relative to a "larger, better, blisser" Boston.

Juror's Illness Halts Wakefield Trial

NEW HAVEN, Ct., July 15.—The trial of the case of a juror's illness and adjournment until Tuesday of the trial of Mrs. Bessie J. Wakefield of the slaying of her husband, William O. Wakefield.

VICTORY OVER TIGERS TODAY
MEANS SECOND PLACE BERTH
FOR THE CARRIGAN TEAM

YANKEE BOXERS CAN DATE OF FIGHTERS BY K. L. ARROLD

By JACK CONWAY.

The ruling of Referee Corrie in the recent championship bout between Georges Carpentier and "Kid" Smith, in which the "famous pug" in all England gave the verdict to the Frenchman on a foul in the sixth round, will probably cause American boxers who have acquired the fame to give England a wide berth in the future.

Corrie's decision was not a great surprise to those persons who are well versed in the methods of the English sporting leaders. It was merely another case where the American fighter did not have a chance in win unless he knocked out his opponent.

True, Carpentier is not an English boxer. He is a citizen of France, although the English do not like the French, they love Americans even less. Consequently, even a Frenchman took great pleasure in declaring the Frenchman a winner.

One of the first examples of English unfairness toward American boxers was when John C. Heenan, an American, fought Tom Heenan, British champion. The contest aroused a tremendous amount of interest in England and was witnessed by thousands of the aristocracy, while prominent church men occupied the ringside seats.

ROBBED OF VICTORY

The craftiest of the English boxers came from Birmingham. From the earliest day the Birmingham motto has been "Win or wrangle."

Heenan and Smythe fought under London prize ring rules. This gave Smythe, advantage, as he was a fast, shifty boxer and not as large as the American. Heenan was a big, powerful fellow, but he was not being one of the best of the Yankee pugilists.

The old rules added Smythe a great deal. When a small man fought a big man under the London prize ring rules, the big man was to keep away, to bleed and to bleed. The little man usually tried to tie up his big opponent in the round ends, whenever either boxer was knocked down or fell to the ground, the referee naturally became out of sight and the referee's decision was the final one.

Heenan finally caught Smythe in a clinch and grabbed him around the neck. High school boys would have run away, to bleed and to bleed. The referee, who was usually in the round ends, whenever either boxer was knocked down or fell to the ground, the referee naturally became out of sight and the referee's decision was the final one.

REWARD EARNED DECISION.

There are scores of examples where English referees have robbed Americans of well-earned victories. When Paddy Maher fought Jimmy Walsh tonight in London, a few fans who saw the Chicago fight and the last of every round. The referee, who was usually in the round ends, whenever either boxer was knocked down or fell to the ground, the referee naturally became out of sight and the referee's decision was the final one.

A real fighter has little chance of winning a contest under the London prize ring rules. The referee, who was usually in the round ends, whenever either boxer was knocked down or fell to the ground, the referee naturally became out of sight and the referee's decision was the final one.

English do not care a great deal for the reason is because England has failed to develop a real fighter. The referee, who was usually in the round ends, whenever either boxer was knocked down or fell to the ground, the referee naturally became out of sight and the referee's decision was the final one.

Before the Smith and Carpentier bout the English declared that they were anxious to see a fight between win. But, as a matter of fact, they were secretly rooting for the Frenchman. The referee, who was usually in the round ends, whenever either boxer was knocked down or fell to the ground, the referee naturally became out of sight and the referee's decision was the final one.

It was the first time Carpentier won the Frenchman. It was a victory for the Frenchman. The referee, who was usually in the round ends, whenever either boxer was knocked down or fell to the ground, the referee naturally became out of sight and the referee's decision was the final one.

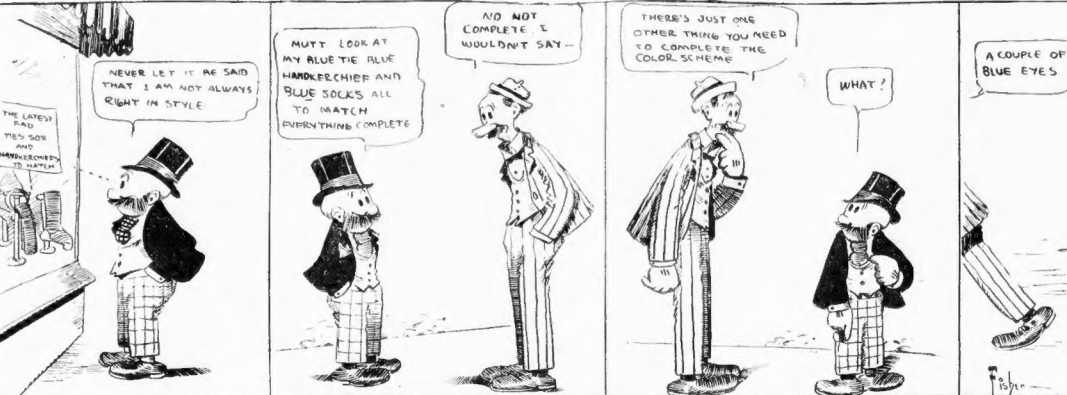

It was the first time Carpentier won the Frenchman. It was a victory for the Frenchman. The referee, who was usually in the round ends, whenever either boxer was knocked down or fell to the ground, the referee naturally became out of sight and the referee's decision was the final one.

It was the first time Carpentier won the Frenchman. It was a victory for the Frenchman. The referee, who was usually in the round ends, whenever either boxer was knocked down or fell to the ground, the referee naturally became out of sight and the referee's decision was the final one.

BOSTON AMERICAN SPORTING NEWS

There's Nothing Like Being What You Say, Chic

BRAVES BATTLE HARD TO LAND WIN FROM REDS

CINCINNATI, July 15.—With both teams playing at their best, the third battle between the Braves and the Reds today promises to be one of the best ever played here. The Boston boys have the edge so far, holding the leads to a tie in the first and second innings, 1 to 0, in the second game.

The second game was a pitchers' battle for the first part between James and Bennett. Only two runs reached first base in the first six innings, and only thirteen batters faced Big Jim in the six innings.

When a hit was made by either side until the fourth, when the Braves got three and scored a run.

The first five innings were played in a clinch and grabbed him around the neck. High school boys would have run away, to bleed and to bleed. The referee, who was usually in the round ends, whenever either boxer was knocked down or fell to the ground, the referee naturally became out of sight and the referee's decision was the final one.

James pitched, usually, fast time. The first five innings were played in a clinch and grabbed him around the neck. High school boys would have run away, to bleed and to bleed. The referee, who was usually in the round ends, whenever either boxer was knocked down or fell to the ground, the referee naturally became out of sight and the referee's decision was the final one.

BLACK KNIGHT, THE FORMER RED SOX
 The former Red Sox pitcher, who was traded to the Yankees in 2003, is expected to be a free agent this winter. He is currently with the Yankees.

MESSY KATE OF INDIANAPOLIS
 The former Red Sox pitcher, who was traded to the Yankees in 2003, is expected to be a free agent this winter. He is currently with the Yankees.

OWNER BOB HEDGES OF THE BRONX
 The former Red Sox pitcher, who was traded to the Yankees in 2003, is expected to be a free agent this winter. He is currently with the Yankees.

JOHNNY RATTEN WAS NAMED BY
 Manager Clint Hurdle of the Washington Nationals as the starting pitcher for the team's first game of the season.

MOVIES SHOW SMITH 'FOUL' HARMLESS BLOW

Special Cable to Boston American. LONDON, July 18.—London is doing little except talk about the French film which makes the film to doubt whether the great damage

Smith-Carpentier hit at the Olympia. Out of the talk, as chronicled in most of the daily papers, comes evidence that there is practically unanimous agreement on the following:

Intentional foul, a glancing blow, or whether the fact that he could not get up was due to the solid knock-out punch that drove him to his

It was very evident to Almoar everybody at the ringside that Corri's decision, which was given only after a perceptible amount of hesitation

The motion pictures, put on view last night, also prove that he did—a harmless glancing

right hand swing that just grazed the Frenchman's head, exactly as Smith stated in giving his version of the incident.

Smith was a race admitted even by Referee Corri himself that Smith actually received a count of 13 seconds when Carpenter knocked him to the canvas in

This, however, is held not an important matter, because both sides had agreed to let Corri do the counting, and the latter as-

serts that as he tolled off the nine counts he did his best to make them accord with the actual seconds.

The question whether Carpentier was not automatically disqualified the moment his manager jumped into the ring is disposed of by Corri in the following statement:

I was quite prepared to let the fight go on if Turpeater could get up. I have been blamed for being too severe, but as a matter of fact I had no desire to end the

the Smith-Carpenter foul also was framed up for the purpose of getting another \$75,000 gate in eight-frenzied London.

Big Lexington Game. The first in the annual series of baseball games between the St. Eulalia team of South Boston and

disqualify Smith, thereby automatically disqualifying Carpentier.

— VACATION DAYS in the mountains —

VACATION DAYS in the mountains go all too quickly amid the wealth of beautiful scenery and clear, bracing air—but in the evening, when you're

fired from the long tramp over the hills, that's the time when you'll enjoy the news of the busy world below the clouds.

Have the Boston American follow you and read the news every day just as you do when you're back home. Fill in this blank—we'll do our part.

CHAPTER III.

TWO COUSINS
While Constance Medford sat at the piano complying with Edith Leland's request, her thoughts were with her Blue. She had been living in the hotel for a year, but she had never seen her father a year ago. Her mother had died when she was a child, and her father had been in the army. She had no one to turn to for a knowledge of music that could be turned to profit. Her aunt and uncle had insisted upon her going home with them. She did not want to

der and I forget that you had been insisted upon something holy. But—
—clawing at the mantel shelf—it is getting late and we shall have to hurry this time. You will change our dresses in time for dinner."
She put her arms about Edith's neck and kissed her. "I shall be home again," she said.
She was glad there was no time just now for further discussion of Tom and Ralph Morton.

BOSTON AMERICAN

42 AND 43 SUMMER ST., BOSTON, JULY 18, 1914.

Huerta, of Mexico, May Not Be Napoleon Bonaparte, but--

He Has Six Millions in Gold Stored Away in Paris. He DIDN'T Apologize to the United States. He DIDN'T Salute the Flag. And He Stayed in Office as Long as He Pleased--Which Is, Perhaps, More Than His Personal Enemy, Woodrow Wilson, Will Do.

Copyright, 1914, by The Star Company

General Huerta retires, with a solemn bow and an equally solemn wink of his dark Indian eye.

He has stood alone in the City of Mexico, with a handful of soldiers, with a couple of little "war" boats floating on the water far off, too feeble almost to fight a ferryboat.

All the power of the United States, and, incidentally, all the personal hostility of the President of the United States, have been centred upon Huerta. And he has not been in the least disturbed.

He had our sailors arrested without cause, was invited to apologize and did NOT do so.

He was told that he must hoist the American flag and salute it very solemnly. He retired with his six millions, and the poor American flag thus far has not been saluted by him. And there is no indication that it ever will be.

Huerta's Indian mother, with the wide hips, low forehead, strong jaw and piercing eye, always said that her boy was smarter than the others. She said also, "I have always taught him to go by one road and come back by the other road." That was her plan to avoid assassination.

Our compliments to Mother Huerta. Her boy certainly is an energetic survivor of the Mexican Indian race. The power of the United States did not disturb him or dislodge him. He held his place, killed his enemies, humiliated this country, making it the laughing stock of other countries.

Now, with six millions in gold ahead of him, and his family across the water, he will go to Paris--the true happy hunting ground of the modern American Indian--and live happily ever afterward.

Grand Opera in the Open Air--and FREE

That Is the New Feature of Life in Milwaukee Highly Successful. Americans Are Responsible for It.

Copyright, 1914, by The Star Company

Those who feel that our blackest national spot is the little Socialist party, wiggling its childish legs and arms in the effort to be something, may find comfort in the news from Milwaukee.

In Milwaukee the Socialists not long ago carried the city and elected a Congressman. And for some years Democrats and Republicans have been compelled to unite on one single candidate in order to keep the Socialists down. Even with Democrats and Republicans united the Socialists have occasionally beaten them, and very nearly beat them at the last election.

Those who are filled with sorrow at the progress that the gentlemen of the red flag are making in Milwaukee may find comfort in the fact that the conservatives in power who have just beaten the Socialists have decided that it is proper "to do something for the common people."

Milwaukee had been run hitherto on a basis of "everything for a few and nothing for the crowd."

Now, with the Socialists coming up at every election stronger and stronger, the program is changed.

One change consists in grand opera, which was given free to the people in the public square.

An excellent orchestra and well-trained voices gave to all of the people the music usually reserved for the few that could afford expensive seats.

The people responded, showing approval and appreciation with a crowd of ten thousand at a single performance.

Providence works in a mysterious way, indeed, when that political and social bugaboo, the Socialist party, drives the admirable, respectable, staid, conservative element to such a frame of mind that it actually spends money for the entertainment and pleasure of the people as a whole.

Perhaps some of the other big cities might take the idea and see what they could do for the people--without waiting for such a man as Victor Berger to build up a party to scare them into doing something by its success at the polls.

Letters from American Readers

MR. EDITOR: CORRECTION WANTED.

Editor BOSTON AMERICAN:

Dear Sir--Your editorial of the fourteenth instant, praising Governor Walsh as an executive who has done his best to keep his pre-election promise to the people, is absolutely fair. It is timely for the electorate should know that there is a Governor who has done his very best to keep faith with all the people.

I have discussed with him some of the reforms that form the nucleus of the Progressive party platform, and it was with pleasure that I noted his intense desire to have them carried into law to benefit all our people, and thus I step to wonder how Charles Sumner Bird came to criticize Governor Walsh, who has done his BEST to keep his promises, and neglected to criticize and condemn the elected Progressives who openly betrayed all Progressive promises after they were elected.

Wendell F. Thore

In my opinion it will be a long time before this Commonwealth will find a man who deals or ever equals Walsh as an executive who has done his best to keep his pre-election promise to the people, is absolutely fair. It is timely for the electorate should know that there is a Governor who has done his very best to keep faith with all the people.

I have discussed with him some of the reforms that form the nucleus of the Progressive party platform, and it was with pleasure that I noted his intense desire to have them carried into law to benefit all our people, and thus I step to wonder how Charles Sumner Bird came to criticize Governor Walsh, who has done his BEST to keep his promises, and neglected to criticize and condemn the elected Progressives who openly betrayed all Progressive promises after they were elected.

Wendell F. Thore

PROF. THOMAS M. PROBERT, Editor BOSTON AMERICAN.

Dear Sir--It is reported that Professor Todd, from a monoplane 25,000 feet high, will seek to solve the mystery of the sun's corona that has baffled astronomers for ages. I want to say if there is any mystery about the sun or the corona it will never be solved by eyeglass, as it must be purely a question of philosophy on account of its distance and other circumstances. In fact there was no corona, it being simply a matter of dynamics.

Henry F. Knapp

His Wife Does Not Understand Him

There are thousands of men like this--telling a wearied listener "my wife does not understand my temperament." The man probably would not be pleased if he knew what the woman listening thinks of him. It would be a poor world if the women were not better than the men.

More Truth Than Poetry

Estrangements

Plenty of Proof
If anybody doubts the ability of the Interstate Commerce Commission to prove all it has said of the New Haven loaders, it is only necessary to unseat and inspect the evidence in the office of the United States Attorney-General.

Qualified
McLennan's proposal for the Supreme Bench, West, he is a fairly good golf player.

Especially Not His Own
The New York World says nobody ever accused William J. Bryan of wasting \$20,000,000. He never heard of anybody who knew Mr. Bryan accuse him of wasting five cents.

The Land of Liberty!
Under a new ruling the Immigration Office will not admit any Hungarians under twenty-five who have failed to serve their compulsory term in the army. In other words, a rebellious form of government with long and womanhood which goes to escape oppression he mustn't do it under the shadow of the Statue of Liberty.

When I was absent from my farm and took my wife and child to the estrangement. The estrangement exists, and this is the fact that must be dealt with."--Secretary Bryan, defending the proposed gift to Columbia of \$25,000,000.

I HAD a slight estrangement with a man called Mike the Rat. Arising from the circumstance that he had robbed my fat. But when I took the case to court I found I had no right to tell about the happenings of that eventful night. I could not even show my head, to prove that it was battered; The fact of the estrangement was the only thing that mattered.

I HAD a mild estrangement with a man who called one day "Queen" and those who do not think of this kind of worship about. But that I found could not be done; no theft was happening now. The court said my attorneys must contrive some new arrangement To prosecute this person on the fact of the estrangement.

I HAD a bad estrangement with the chauffeur of a day. Who knocked me down, ran over me and went upon my way. I sought to sue the fellow, but the judge said with a frown: "We cannot entertain the fact is that this man knocked you down. Don't tell a tale of damages, although it may be true; The fact of the estrangement is the thing on which to sue."

It Won't Work
Ohio's plan to hold a special session of the Legislature to reduce taxation is like hiring a taxicab to reduce traveling expenses.

No Disturbance There
Whenever King George really begins to be disturbed by the Bufts, he can always find rest and quiet in Ulster.

It Might Be Worse
Every time Huerta wants to cheer he need only think of the King of Albania, who has to board a bathtub before he dines take a nap.

Safely First, However
Many gentlemen who hold that wives are justified in putting daggers in their husbands' offices look carefully behind bars, pictures and tables every day.

Leslie Majestic
SENATE QUESTIONS WILSON TRUST BILLS--Headline. Dreadful. It is to be co-ordinate branch of the government.

The number of big business men who began effort work as a business career as stenographers is clear beyond all proportion of any other position.

Frank A. Vandenberg, president of the largest bank in America, was stenographer and secretary to the United States Secretary of the Treasury, John D. Rockefeller, himself was a Bryant & Stratton boy.

George B. Cortelyou was a stenographer in President Theodore Roosevelt's Cabinet when stenographers--never mind who.

A few days ago I met Mr. E. D. Levy, general manager of the Franco-Batavia System. Mr. Levy began work in a railroad office as an stenographer and made himself so useful that he has gravitated by rights to the position of general manager of the man that he originally worked for.

Dozens of such instances can be stated. A stenographer should be on good terms with the dictionary, and know how to manipulate the encyclopedias. Many a stenographer, I notice,

Our Noblest Sympathies Only Stomach Troubles

Interesting new scientific theory that all the emotions we feel are psychic vibrations which have their root in our stomachs and in the memory of our own hunger and starving. See tomorrow's Boston Sunday American, which will also contain, among other great features, the following:

What Kind of a Kisser Are You?

Interesting suggestions for individual and scientific research offered by a new "Science" which deepens the "Planetary Symbols" formed when love puckers the lips.

Love Me, Love My Lions!

Tragic romance of the young millionaire who fought his way to his lady's heart through the lion's den--and died.

Your Eyes Are Like a Lobster's

And this is the reason why many attempts at suicide prove futile and the victims make themselves blind instead.

New Invisible Perils That Menace Our Conquest of the Air

Unexpected and alarming possibilities of wireless currents, the sun's spots, the moon's pull and other mysterious forces which balk man's efforts to make him self a flying animal.

This Frenchman Says We Have No Manners

Count A. de Castellane Seymore, the distinguished French arbiter of elegance, gives his surprising reasons for holding that the average American is totally ignorant of the first principles of everyday courtesy.

How Our Ears Hear Music

An ingenious solution of an old problem which explains what we call musical as being due to the way sound waves ripple through little windows inside our head.

Rich Mrs. Little's Unfortunate Experiments in Making Butterflies.

Interesting determination shown by a rich beauty of fashionable society who was lost by two husbands because they simply wouldn't be satisfied with glided leisure.

The New Fall Hats

A page which will be read with keenest interest by every woman is this one in which Lady Duff-Gordon, the famous Lucile of London, gives a fascinating advance peep at some of the charming millinery which will be in vogue during the coming season.

How to Tell What Is Fit to Eat

Simple ways which every housewife should know of testing the wholesomeness of meats, fish, vegetables and other foods.

The Stenographer

By ELBERT HUBBARD

If I were twenty, with an ambition to succeed in a business career, I would study stenography. It is a science, not a trade. It would lead to spell, paragraph and punctuation. Besides, I'd put a little furniture in my attic. Stenography is a good profession in itself, but with a stepping stone to success. It beats the day tannery to a frazzle.

Stenography puts you in a position where the lightning of promotion may strike you. It means opportunity. "One-half the battle," says Thomas Brackett Reed, "is to get the stenographer's eye."

A stenographer stands at the pivotal point, and cannot be overlooked. There is today a demand for stenographers such as there has never been before, and the wages they command are considerably more than are paid to the clerk at the busy end of the ledger.

The women are just as faithful and honest as men there is no doubt, but the fact that many women look upon business as a scheme for bridging a rather monotonous gap in their lives is also a fact. But there are exceptions.

The biggest man at No. 28 Broadway has a woman secretary, who began effort work as a business career as stenographer in clear beyond all proportion of any other position.

Frank A. Vandenberg, president of the largest bank in America, was stenographer and secretary to the United States Secretary of the Treasury, John D. Rockefeller, himself was a Bryant & Stratton boy.

George B. Cortelyou was a stenographer in President Theodore Roosevelt's Cabinet when stenographers--never mind who.

The Strange Worship of Kings

By Rev. C. F. Aked, D. D.

THE old-world worship of kings and queens is a very wonderful thing. We who live under a republican form of government have to look across continents and oceans before we can see it at its best and womanhood which goes to escape oppression he mustn't do it under the shadow of the Statue of Liberty.

Some few American men and women, only a few, a mere handful out among the ninety millions, hate with a perfect hatred the whole business of monarchs and courts and adulation and sycophancy, and the bowing of the heads of mankind and womanhood which goes with it. The great majority of persons rather like it--at a safe distance. It is picturesque, quality-temperance, mildly amusing.

Few persons know to what length the worship of kings and queens has been carried by the brawny-brained, liberty-loving nations from whose loins we have sprung. It is safe to say that not many people nowadays read Spenser's "Faery Queen" and those who do probably skip the dedication.

But there it is, an offering to that red-haired, impartial, but decidedly bad-tempered lady, Queen in fable as "good Queen Bess." The "Faery Queen" is dedicated to "the most high, mighty, and magnificent empress, renowned for purity, virtue and all gracious government, Elizabeth."

This is nothing compared to the language in which the biographe and other notable divines who gave the Authorized Version of the Scriptures to the English-speaking world dedicated their work to King James.

This dedication is a curiosity of literature. Editions of the Bible printed in this country and editions imported from England have been prepared without it. But for two hundred and fifty years British printers would put as soon have omitted the Benediction as the dedication to King James.

A deep damnation has fallen upon the young man or young woman who is cynical, blasé, contemptuous of virtue and aspiration and beautiful sentiment. It is life to love. Idealization is not misrepresentation. It is not pretentiousness. It is not suggestion of the false by suppression of the true. It is a transference to a person whom we know or have known of ideal charms and graces which, though we do not possess them ourselves, we know to be the real wealth of the world and the aliding glory of humanity. The old King worship is not for us. We have named beyond that stage of evolution. But that man needs to try with Robert Louis Stevenson. "Lord, thy most potent pleasure take."

And stab my spirit break awake." If he has lost the capacity for idealization out of which such worship grew, we live by aspiration, awe, wonder.
